

IIDS Infrastructure Affiliation in VERAS

If your proposed work utilizes IIDS infrastructure or resources (examples below), you should annotate that affiliation in [VERAS](#).

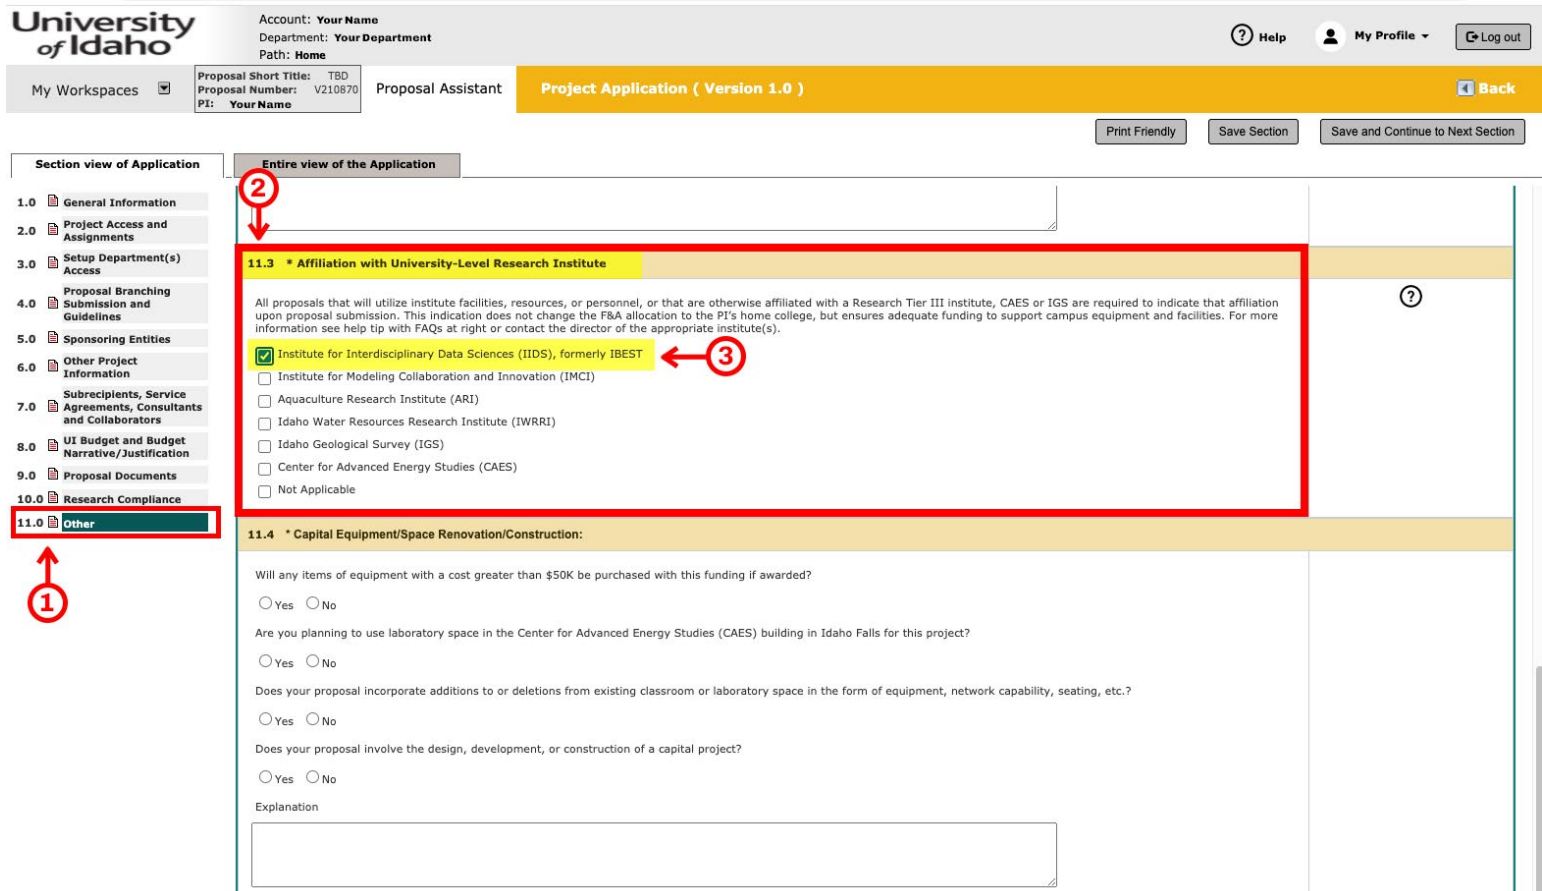

IIDS infrastructure includes, but is not limited to:

[Genomics & Bioinformatics Resources Core \(GBRC\)](#) – next-generation sequencing, targeted re-sequencing, DNA & RNA high-throughput sample preparation, bioinformatics & statistical analysis, etc...

[Research Computing & Data Services \(RCDS\)](#) – high performance computing, data management & storage, database/web development & hosting, mobile app development, etc...

Instructions

When creating a new proposal in VERAS, proceed through the application until you get to section 11.0 “Other” (1). On item 11.3 “Affiliation with University-Level Research Institute” (2), check the box for “Institute for Interdisciplinary Data Sciences (IIDS), formerly IBEST” (3).

11.0 Other

11.3 * Affiliation with University-Level Research Institute

All proposals that will utilize institute facilities, resources, or personnel, or that are otherwise affiliated with a Research Tier III institute, CAES or IGS are required to indicate that affiliation upon proposal submission. This indication does not change the F&A allocation to the PI's home college, but ensures adequate funding to support campus equipment and facilities. For more information see help tip with FAQs at right or contact the director of the appropriate institute(s).

Institute for Interdisciplinary Data Sciences (IIDS), formerly IBEST
 Institute for Modeling Collaboration and Innovation (IMCI)
 Aquaculture Research Institute (ARI)
 Idaho Water Resources Research Institute (IWRRI)
 Idaho Geological Survey (IGS)
 Center for Advanced Energy Studies (CAES)
 Not Applicable

11.4 * Capital Equipment/Space Renovation/Construction:

Will any items of equipment with a cost greater than \$50K be purchased with this funding if awarded?
 Yes No

Are you planning to use laboratory space in the Center for Advanced Energy Studies (CAES) building in Idaho Falls for this project?
 Yes No

Does your proposal incorporate additions to or deletions from existing classroom or laboratory space in the form of equipment, network capability, seating, etc.?
 Yes No

Does your proposal involve the design, development, or construction of a capital project?
 Yes No
