

**INSTITUTE FOR  
INTERDISCIPLINARY  
DATA SCIENCES**

# SPRING 2025 SEMINAR SERIES

THURSDAYS AT 12:30 PM

This semester, the Institute for Interdisciplinary Data Sciences (IIDS) will adopt a more relaxed and informal approach to our ongoing seminar series. Sessions will focus on informal presentations and provide an open space for researchers to connect, share ideas and explore potential collaborations. These gatherings will present an excellent opportunity for engagement with IIDS experts from Research Computing and Data Services (RCDS) and Genomics and Bioinformatics Resources Core (GBRC) teams. The specific IIDS experts in attendance may vary each week, creating a dynamic environment for discussion.

Please be sure to check your email for weekly announcements detailing the specific topics and presentations for each session. If you are not currently a member of the IIDS listserv and would like to stay informed about IIDS events, please reach out to us at [iids@uidaho.edu](mailto:iids@uidaho.edu) to be added to the mailing list.
